### Formative Evaluation for DL Courses

**Objective:** Help Faculty and Students identify improvements in teaching and learning

Please complete this survey (lab) using the test and survey in OnCourse

Please provide at least one answer to each of the 6 questions below. I encourage you to write more than one answer for each question. Your responses will help me address your concerns and enhance your learning experience.

1. **What is one specific thing about this course or my work as an instructor that I should keep doing because it has helped your learning in this course?**

2. **Identify one specific thing about this course or my work as an instructor that I should stop doing or do less often because it has interfered with your learning in this course?**

3. **Suggest one specific thing about this course or my work as an instructor that I should start doing or do more often because it has helped your learning in another course?**

4. **What is one specific thing that you as a student should keep doing because it has helped your learning in this course?**

5. **Identify one specific thing that you as a student should stop doing or do less often because it has interfered with your learning in this course?**

6. **Identify one specific thing that you as a student should start doing or do more often because it has helped your learning in another course?**
