Produce a table for at least 5 of the languages discussed in class or in our text and provide the following information for each language:

- **History**.
- **Developer(s)**.
- **High level, low level, etc..**
- **Compiled, interpreted, etc..**
- **Application domains which is suitable for**.
- **Advantages**.
  - Portability, speed, efficiency, completeness, ease of use, etc..
- **Disadvantages**.
  - Readability, Writability, etc..

<table>
<thead>
<tr>
<th>Language</th>
<th>History</th>
<th>Developer</th>
<th>High/Low Level</th>
<th>Compiled / Interpreted</th>
<th>Application Domain</th>
<th>Advantages</th>
<th>Disadvantages</th>
<th>Etc.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
