MAICS 2010

The 21st Midwest Artificial Intelligence and Cognitive Science Conference

April 17-18, 2010

<http://www.cs.iusb.edu/~maics/>

Call for Papers

The MAICS conference is a regional forum for presenting and exchanging ideas related to Artificial Intelligence and Cognitive Science. This peer-reviewed conference brings together researchers and scientists working in the fields of Artificial Intelligence, Cognitive Science, Education, Linguistics, Philosophy, and Psychology. Graduate students and junior faculty are especially encouraged to submit papers. Submitted papers may present significant final results or describe interesting research in progress.

Topics of interest: include, but are not limited to Artificial Intelligence, Cognitive Science, Neural Networks, Computational Intelligence, Intelligent Systems, Natural Language Processing & Understanding, Computational Linguistics, Logic and Reasoning, Evolutionary Computation, Machine Learning, Computational Theories of Learning, Web Intelligence Applications, Decision Support Systems, Data Mining & Visualization, Knowledge Representation & Management.

Submission procedure: send the paper in PDF or MS Word format by email to maics@cs.iusb.edu. Papers should range in length from four to eight two-column pages including figures and references using the AAAI format (<http://www.aaai.org/Publications/Author/author.php>). The authors will retain the copyright.

Important Dates:

Deadline for paper submission: February 15, 2010.

Notification of provisional acceptance and reviews: March 15, 2010.

Final version of papers due: April 5, 2010.
